INTERVIEW SUMMARY

Mail Stop AF
Commissioner for Patents
P.O. Box 1450
Alexandra, VA 22313-1450

Dear Sir:

On April 7, 2008, Examiner Korobov and Scott W. Brim discussed the pending application and U.S. Provisional Pat. App. No. 60/286,225. Applicants thank the Examiner for the opportunity to discuss the application. During the interview, Examiner Korobov asserted that U.S. Provisional Pat. App. 60/286,225 taught each element of claim 1. Applicants disagreed and submitted that U.S. Provisional Pat. App. 60/286,225 fails to teach at least the last element of claim 1 of routing a message which is to be

routed to one of a plurality of authorized parties to an active communication device associated with the second authorized party in response to determining that the presence of a first party remains undetected and detecting the presence of the second authorized party. Examiner Korobov stated that he intended to reopen prosecution on the merits.

If there are any questions concerning this Interview Summary, the Examiner is asked to phone the undersigned attorney at (312) 321-4200.

Respectfully submitted,

A handwritten signature in dark ink, appearing to read "S W Brim", is written over a horizontal line.
